# Weather Key Points

Regional Operations Center

Western Region

Saturday, October 15

- Scattered showers and thunderstorms have returned across much of southern California, and will continue to be possible through Sunday night.
  - The best coverage still looks to be this afternoon and tonight. Some storms could produce locally heavy rainfall, though exact precipitation amounts remain somewhat uncertain at this time.
  - Flash Flood watches are in effect for portions of Imperial, Riverside, San Bernardino and San Diego Counties through late Saturday night.
- A cooling trend with much cooler temperatures is still expected along the coast, in the Central Valley, and across Southern California today and continuing into early next week before a warming trend returns. Sierra Nevada and southern Cascades temperatures across Northern California are expected to remain above normal through the weekend and into next week.
- A few showers could develop across northwest coastal locations for the early to middle portions of next week, though any rainfall looks to be light.

# Precipitation Forecast

# Precipitation Forecast

## Burn Scars of Greatest Concern on Saturday

- Apple/El Dorado and Bond burn scars
- LA County Burn Scars: Lake, Fish, Route2, Bobcat, Dam and Ranch2

**Note:** This is not expected to be a particularly significant event, but burn scar flooding is possible if a strong storm develops with heavy downpours.

**Important Note:** Forecast precipitation amounts are an average for any particular location. Thunderstorms will produce locally much higher rainfall amounts.
